PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Web Developer seeking to leverage foundational skills in C, C++, HTML, and CSS to build functional and responsive interfaces. Eager to contribute to dynamic projects while expanding practical experience with JavaScript and React.

PROJECTS

MERN Stack E-Commerce Project

2024 – Present

GitHub: github.com/Leejaw-Chitrakar/MERN-PROJECT

- Built a fully functional MERN stack commerce site to support local businesses.
- Implemented secure user authentication flows demonstrating full-stack capability.
- Utilized MongoDB, Express/Node.js for backend API and React for the frontend.

Kaaputale E-Commerce Site

2024 – Present

GitHub: github.com/Leejaw-Chitrakar/Kaaputale

- Developed an e-commerce platform focused on optimized UX and clean, responsive design.
- Ensured complete responsive functionality across mobile, tablet, and desktop.
- Built exclusively using ReactJS for component state and UI management.

Quiz Game & Hangman

Discovery Phase

Interactive JavaScript Games

- Showcases interactive logic and core JavaScript implementation.
- Demonstrates core programming concepts and game logic implementation.
